

REEL CINEMA, SPRINGS MALL DUBAI, UAE

FC CONSULT were delighted to have been appointed in 2017 by REEL Cinemas as their Building Services Consultant for their New 6 Screen Cinema in Springs Mall, located at The Springs Village in Dubai. Our relationship with EMAAR Leisure & Entertainment commenced in 2016 with their first Cinema expansion at Marina Mall, followed by Jebel Ali Recreation Club, Dubai Mall Phase 2 Expansion (Refer to later) and recently Al Ghurair Cinema, 18 Screens.

The programme for the Springs Mall Reel Cinema was fast track and includes their state of the Art Dine in Themed Auditoria, which is spear headed by their new signature Chef, Guy Fieure from the US.

REEL Cinemas took over the Shell and Core quite late in the development of the Mall, and certain services had to be modified from base build to accommodate the Cinema. The roof plant location was also quite difficult given the shopping centre was in the final stages of fit-out and many Tenants had utilised the available space left for the Cinema plant.

The Cinema is due to open in July 2018 and is the third REEL Cinema to open in Dubai in 2018 with Dubai Mall Phase 2 and Jebal Ali Recreation club both completing this year. FC CONSULT provided Building Services Design and Supervision for both these projects.
