

Middleton Technology School, Rochdale, UK

SERVICES – Independent Certifier, BSF Programme UK

Project description

Work on the £9.3 million redevelopment of Middleton Technology School in Rochdale is now complete on site prior to the start of a new school year. We were working alongside AA.Projects acted as independent certifier for Rochdale Borough Council, as part of their £192 million BSF Programme.

The redevelopment works included construction of a brand new 3-storey technology block, constructed alongside the school's recently completed sixth form building and used to deliver specialist subjects such as science, technology, engineering and mathematics. The remainder of the school's existing accommodation was fully refurbished with new 21st century ICT provision installed throughout.
